

Aditi Dwivedi

Sr. Associate UI/UX Designer

Sr. Associate UI/UX Designer who finds clarity in messy product problems and quiet joy in pixel-level details. Two years of shipping end-to-end across fintech, design studios, and freelance work — from research and wireframes to live design systems in production. Currently designing alongside Claude, curious about how AI is reshaping the way we work, and happiest when craft and curiosity share the same workspace.

WORK EXPERIENCE

Sr. Associate UI/UX Designer — *Instantpay India Ltd.*

📅 04/2024 – Present 📍 Delhi

- Drove a **42.3% lift in new user signups** by rebuilding the pre-login web experience (landing pages, sign-up, onboarding); also improved daily active users by 13.37% and downloads by 3.2%.
- Led end-to-end design of a new **Insurance module** from research and wireframes to final UI delivery; now the primary insurance flow used by both users and agents.
- Redesigned the **post-login dashboard** across six modules — Marketplace, mPOS, Loans, Verification Suite, Contact Book, and Brand Gift Cards — shipping a unified design system in Figma that is live in production.
- Partnered with engineering teams to ensure pixel-accurate implementation; built reusable components and patterns adopted across the platform.

Freelance UI Designer — *Noormer Tech*

📅 07/2023 – 09/2023 📍 Gurgaon

- Designed wireframes, interactive prototypes, and clean UI in Figma for a **travel platform** and an **e-commerce website**; iterated with stakeholder feedback to align design with business goals.

Visual Design Intern — *Bridge UX Design Studio*

📅 03/2023 – 08/2023 📍 Bangalore

- Owned the **research-to-design pipeline** across mobile apps and websites — including user research, personas, journey maps, heuristic evaluations, UX audits, wireframes, and prototypes.
- **Published two long-form UX articles** (Usability Testing, Heat Mapping) on the studio's LinkedIn as part of its design thought leadership.
- Established visual consistency across deliverables — type hierarchy, color systems, and component patterns.

Graphic Design Intern — *Morph Digital Solutions*

📅 06/2022 – 07/2022 📍 Bangalore

- Designed a **digital kiosk experience for Titan retail stores**, contributing to in-store customer engagement and brand presentation.
- Created digital emailers, campaign assets, and website graphics across the brand's wider design needs using Adobe Illustrator and Photoshop.

SKILLS

Design: Product Design, UX Research, UI Design, Design Systems, Interaction Design, Prototyping, Information Architecture, Wireframing, Visual Design, Storyboarding

Process: End-to-end Design Ownership, Stakeholder Management, Cross-functional Collaboration, Usability Testing, Heuristic Evaluation, User Research, UX Audit

AI Workflows: Claude-assisted Prototyping, Prompt-driven Research, AI Workflow Integration

TOOLS

Figma, Framer, Claude, Adobe Illustrator, Adobe Photoshop

EXPLORING

- AI-first design workflows with **Claude** for faster prototyping and research.
- Prompt-driven pattern exploration and rapid iteration cycles.
- Shipping production-grade work with AI in the loop, without losing craft.
- Building this portfolio website end-to-end with Claude as a design partner.

EDUCATION

Master of Design (M.Des), Graphic Communication Design

World University of Design, Sonipat

Bachelor of Science (B.Sc), Hotel Management & Catering Technology

Jiwaji University, Gwalior
