- linkedin.com/in/aditidwivedi

A designer who finds clarity in messy product problems and quiet joy in pixel-level details. Two years of shipping end-to-end across fintech, design studios, and freelance work — from research and wireframes to live design systems in production. Currently designing alongside Claude, curious about how AI is reshaping the way we work, and happiest when craft and curiosity share the same workspace.

Focus: End-to-end product design · 0-to-1 product launches · Design systems · Cross-platform (mobile + web) · AI-augmented workflows · Data-driven design

EXPERIENCE

Sr. Associate UI/UX Designer · Instantpay India Ltd.

Apr 2024 – Present · Delhi

- Grew new user signups by **42.3%**, as measured by post-launch product analytics KPIs, by leading the end-to-end redesign of the pre-login web experience across landing, sign-up, and onboarding flows in cross-functional agile sprints.
- Lifted Daily Active Users by **13.37%** and downloads by **3.2%**, as tracked in product analytics, by redesigning the post-login dashboard across 6 modules (Marketplace, mPOS, Loans, Verification Suite, Contact Book, Brand Gift Cards) — iterative, mobile-first, responsive.
- Established the Insurance module as the primary user/agent flow by owning user research, information architecture, wireframes, prototypes, high-fidelity mockups, and final UI through engineering handoff.

Product Designer · DukPdf (Independent Product)

Live & Ongoing · Solo Design Engagement

- Designed DukPdf as a 0-to-1 solo product launch — a live PDF toolkit for everyday tasks like merge, split, compress, and convert — owning product strategy, user research, information architecture, wireframes, user flows, design system, brand identity, and final UI from scratch.
- Continue to iterate on the live product post-launch, refining flows, components, and visual details to make every interaction pixel-perfect.

Freelance UI Designer · Noormer Tech

Jul 2023 – Sep 2023 · Gurgaon

- Delivered shippable responsive UI for client web products by partnering remotely with founders and engineers on interface design.

Visual Design Intern · Bridge UX Design Studio

Mar 2023 – Aug 2023 · Bangalore

- Supported delivery of UX and visual design projects for consumer and enterprise clients across an agency portfolio in agile sprints.

Graphic Design Intern · Morph Digital Solutions

Jun 2022 – Jul 2022 · Bangalore

- Produced on-brand marketing collateral and digital assets for multiple client accounts.

EDUCATION

Master of Design (M.Des), Graphic Communication Design

World University of Design, Sonipat · 2021 – 2023

Bachelors Hotel Management

Jiwaji University, Gwalior · 2018 – 2021

SKILLS

Product Design

- User Research
- Information Architecture
- Wireframing
- Prototyping
- Interaction Design
- User Flows
- Usability Testing
- Heuristic Evaluation
- A/B Testing
- Data-Driven Design

Visual & Systems

- UI Design
- Visual Design
- Design Systems
- Design Tokens
- Component Libraries
- High-Fidelity Mockups
- Accessibility (WCAG)
- Mobile-First
- Responsive

Process

- Design Thinking
- 0-to-1 Product Launch
- End-to-end Ownership
- Cross-functional Collaboration
- Stakeholder Management
- Engineering Partnership
- Pixel-perfect Handoff
- Agile / Sprints
- Iteration

AI Workflows

- Claude-assisted Prototyping
- Prompt-driven Research
- AI Workflow Integration

TOOLS

- Figma
- Framer
- Claude
- Adobe Illustrator
- Adobe Photoshop
- Pencil.dev
